

**Announcing the American Diabetes Association's
3rd Annual "Diabetes Is..."
Student Video/PSA Contest
Sponsored by Novo Nordisk, Inc. and
The Queen's Medical Center**

"The Queen's Medical Center has been an ally of the ADA for many years supporting fundraising events and programs to further mission services to the more than 113,000 people who have diabetes in Hawaii, and we hope that these videos will raise awareness and shed light on the seriousness of diabetes and encourage prevention," said Art Ushijima, President of The Queen's Medical Center.

"Our partnership with Hawaii's schools statewide have allowed us another opportunity to have Hawaii's keiki share what diabetes means to them from their perspective and through their creativity," said Valerie Sonoda, Chair of the American Diabetes Association's Youth and Family Link Committee. "We are excited and look forward to seeing this year's entries!"

"There are over 20,000 Native Hawaiians in the state with diabetes. Native Hawaiians have the highest diabetes mortality rates, followed by Filipinos and Japanese," said Dr. Dee-Ann Carpenter, President of the ADA's Community Leadership Board. "The current trend must be stopped and getting the word out to our younger generation is critical."
